3. Drag the icon to an empty position, and if you drag to other icons, it will form a folder.

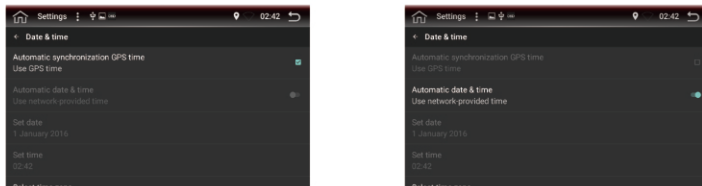

## Replace the main interface wallpaper

1. Press the button .
2. Press the Setup icon , Choose to show
3. Select wallpaper, touch settings wallpaper.

Note: You can also set the wallpaper by referring to the method mentioned in the second page of the manual.

## Time and date settings

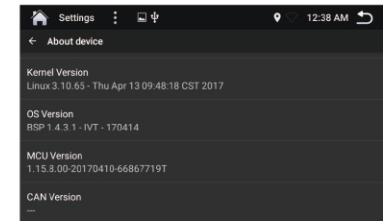

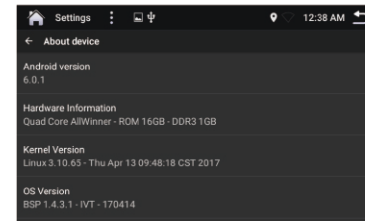

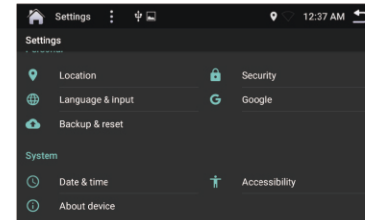

1. Press the button , Press the Setup icon , select Date & Time
2. As shown in the following two ways, choose one.

 Back to previous.

## About Device

1. Settings >> About Device
2. Enter the device interface, you can view the version information, host memory.

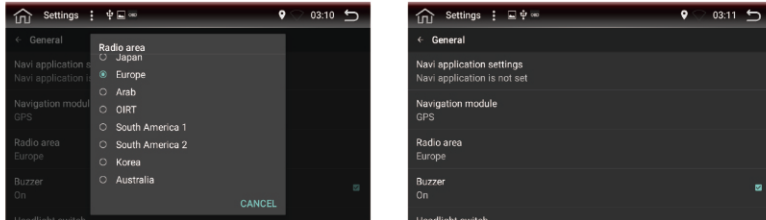

# Set up

## General settings

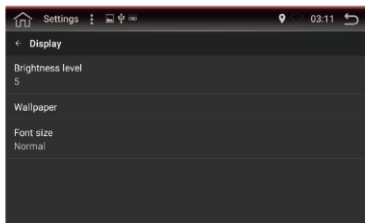

Radio area: set >> general settings >> radio area

Button sound: set >> general settings >> button sound >> On/Off

## Display

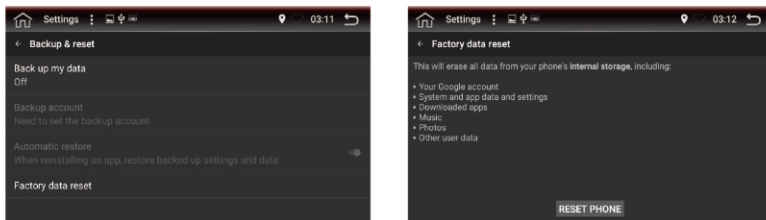

Screen Brightness: settings >> display >> brightness >> adjust the brightness >> confirm

## Backup and reset

Back up the files and reset the system.

Set up >> Backup and reset >> reset >> Restore the factory settings

## Adjust the date and time manually

1. Touch the <Automatic date & time> and the <Automatic time zone> to remove the check.
2. Touch <Set date>, adjust the date, and touch done.
3. Touch <Set time>, adjust the time, and touch done.
4. Touch <Select time zone>, select a time zone.
5. Press the button.

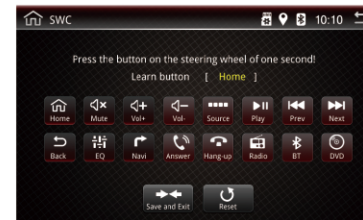

## Start Logo Setup

Touch the , and touch the ES File Explorer , Select your car logo from the USB or SD device. (The image of car logo must be BMP format), click the upper right corner, select Set As Bootlogo

## Language Setup

Touch the , and touch the , touch "Language & input", touch Language, select the language and Press the button.

## Steering Wheel Control Setup

Click into key function learning:

1. Select the function you need.
2. Click your key on the steering wheel.
3. Repeat step 1 and 2 to set other Keys.
4. Press to end.

**Remark:** if you need to reset the keys, click , then you can set again.

## Navigation Operation

### Map Installation

1. Copy the Navi file to SD card and put the SD card to the GPS slot.
2. Touch the , and select the ES File Explorer .
3. Touch SD, and select the extsd1.
4. Select the Navi File, and touch the file with suffix name ".apk" and install.

### Navi Shortcut

1. GPS Shortcut on the front panel setting  
Touch the , and touch the , touch "General", touch "Navi Application Setting", choose the Navi software you prefer.
2. Navi shortcut on the Home Screen

### Colorful lights set (Optional)

Press the button , Then press the colorful lights , Choose your favorite color, the car's key light color changes. (Note: some model do not support colorful lights function.)

## Network Setup

### Wi-Fi Setup

Connect to Wi-Fi access

Touch the  >> touch the "Settings"  >> touch Wi-Fi >> turn on the Wi-Fi >> select network >> type password >> connect.

Connect to Wi-Fi hotspot

Touch the  >> touch the "Settings"  >> touch More >> Tethering & portable hotspot >> Set up Wi-Fi hotspot >> enter the Security code >> touch SAVE.

### 3G Dongle Setup (Optional)

1. Connect the 3G dongle to the USB slot on the back
2. The system will automatically recognize the 3G dongle and connect
3. It connects when the icon  displays on the status bar as picture below.

**Note:** for the 3G dongle, please buy from the dealer to make sure the 3G dongle works with the unit.

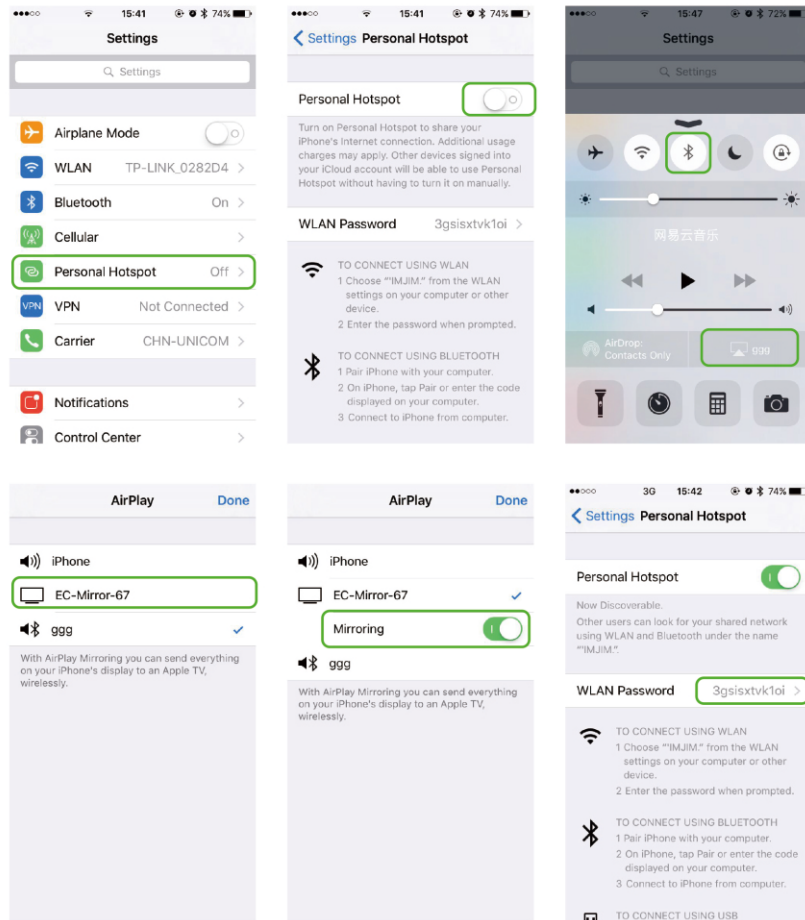

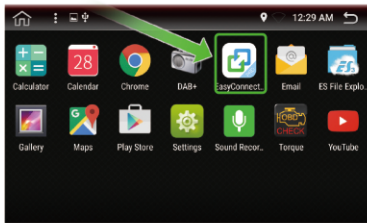

**Note:** For Wifi connect, must make sure the mobile and the unit is connected to the same wifi. Or make sure the unit is connected the wifi-hotspot of the mobile.

**Android 6.0 system supports 4G dongle. The connection of 4G dongle device is consistent with 3G dongle.**

## iPhone WIFI connect

Turn on the BT of the mobile >>> connect to the BT to the unit >>> BT connected >>>  
Touch the easy connect >>> Select the connecting method >>> Connected

## Widget and Application Operation

### Install and Uninstall APPS

#### Install APPS

1. Online install:  
connect internet >>> open the browser >>> google.com >>> enter Android Market >>> download the APK file >>> click NEXT to install.
2. USB/ SD install:  
download the APK file to the USB >>> connect USB >>> touch the ES File Explorer touch the Local >>> choose USB file >>> select the APK >>> touch to install.

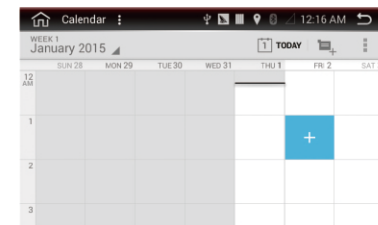

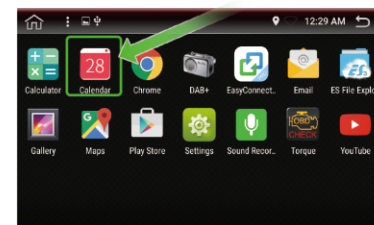

#### Uninstall APPS

1. Touch the >>> touch the "Settings" >>> touch the Apps >>> select and touch the APP touch uninstall >>> touch OK >>> uninstall finished.
2. Touch and hold the APP icon >>> till the and the shows >>> and drag the APP to the trash >>> touch OK >>> uninstall finished.

**Note:** the means you can drag the APP to it and uninstall it. If only the displays, it means you can not uninstall the APP, it comes with the system, you can stop use it, but not uninstall it or delete it.

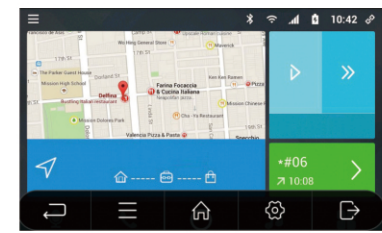

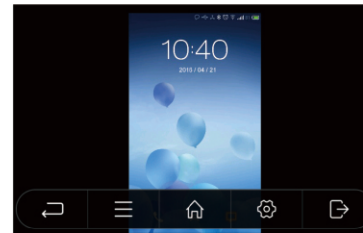

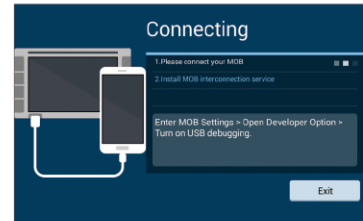

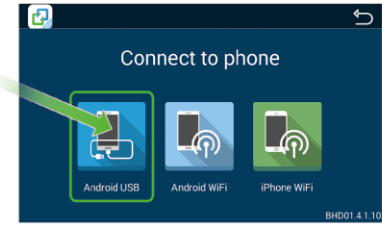

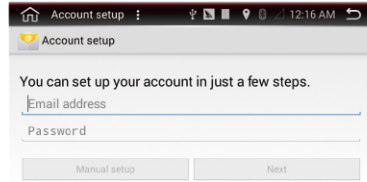

### Calendar Widget

Touch the >>> go to the Widget panel 1 >>> touch and hold the Calendar widget >>> drag to the shortcut panel >>> you can use the calendar widget in the shortcut panel

# Email

Touch the  >> touch Email  >> account setup >> enter email address and password >> touch done.

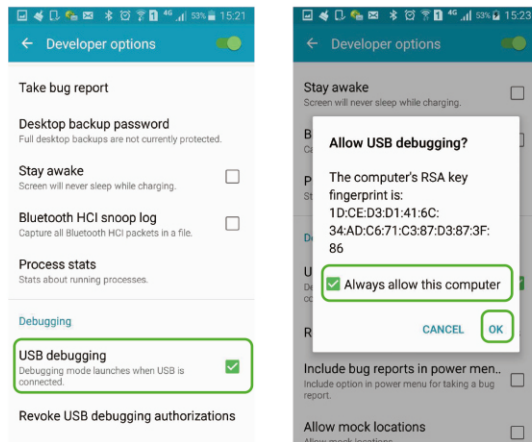

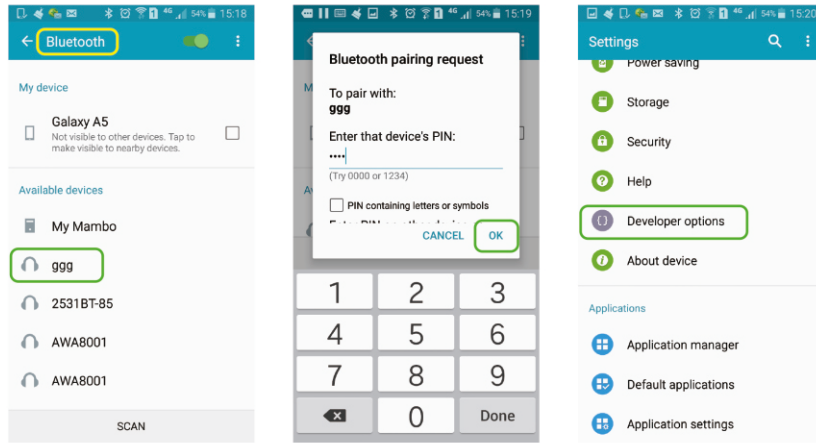

# Mirror Link

**Note:** For android mobile, the USB debugging must be turned on for mirror link function.  
And the mirror link not support all android phone, and only support the android mobile that with the USB debugging.

## Android USB connect

Find the Developer options of the mobile >> turn on the USB Debugging >> turn on the BT of the mobile >> connect to the BT to the unit >> BT connected >> Touch the easy connect >> Setlect the connecting method >> Connected

# Radio Operation

## Radio Basic Operation

1. Select the FM1, FM2, FM3, AM1 or AM2 band
2. Frequency display
  - ◀ switches to previous frequency manually.
  - ▶ switches to next frequency manually.
3. Displays the preset channel list, hold the key (P1-P6) to store the current broadcast frequency.
4. Multi function menu
  - ◀ ▶ Tunes in a station with good reception automatically.
  - 🔍 Short touch for non stop seek tuning, touch again to cancel. Long touch for switching the preset channels, long touch again to cancel.
  - 📶 Change between Locate and DX mode.
  - ⏮ Press to see more functions.
  - RDS Touch <RDS> to active the RDS function.
  - EQ Touch <EQ> to active the EQ function, pls see the EQ and FAB setting below.
5. Mono and DX
  - DX Displays LOC or DX .
  - Mono Displays Mono or Stereo, decided by the radio IC.

## RDS

TP	Shows the traffic station is on or not

**Note:** The Reverse Cable is only with the special car dvd for vw, the universal car dvd no need this reverse cable.

# Bluetooth Control

## CD Player

## Video Player

## Music Player

	Function		Function
	Back to the folder		The last tune
	Pause		The next tune
	Cycle mode		EQ

**Note:** the Music Player and the Video player works when the USB or the SD card is connected. And there are music or video in the USB or SD card.

## Connecting

### Registering your Bluetooth device

1. Active the Bluetooth on your phone
2. Touch search to search the Bluetooth waiting for pairing
3. Touch the Bluetooth Device name ( jj or other) for connecting
4. Type the pin code (default code is 0000 or 1234 ) on your phone

### Connecting a registered Bluetooth manually

1. Active the Bluetooth on your phone
2. Touch the to see the registered Bluetooth device list
3. Kick the box of the Bluetooth device name to connect
4. Type the pin code (default code is 0000 or 1234 ) on your phone

### Delete a registered device

1. Touch the to see the registered Bluetooth device list
2. Cross the box of the device name
3. Touch the cross, and it tips "Do you want to unpair the Device?"
4. Touch OK, the device deleted

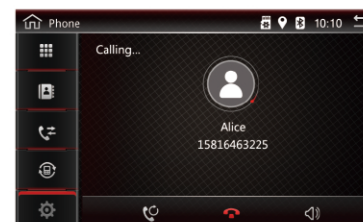

## Hands-Free Call

1		Dial Panel
2		Phone book
3		Phone call record
4		Device list
5		蓝牙设置

### 1) Phone call

Touch the , type the phone number, and click phone call success as screen below, Cancel the phone call by touch the , and touch the to switch to speaker.

# Multimedia

**Note:** Please remove the screws on the top of the cabinet, before you insert a disc.

## DVD Player

	Touch to fast backward, and touch the stop to cancel. Long touch to fast backward 2x, 4x, 8x, and touch to cancel the fast.
	Touch to fast forward, and touch the stop to cancel. Long touch to fast forward 2x, 4x, 8x, and touch to cancel the fast.
	Touch to pause, retouch to continue.
	Stop playing ,return back to default menu
	Touch to the menu play, retouch to the resume.
	Repeat
	Multi-function key , touch to show the options as below
	Touch to set the EQ, same as the EQ in radio screen.
	Touch to choose the language of the subtitle, if the video with different language.
	Touch to choose the video language, if the video with different language choice.
	Touch to select the chapter, enter the chapter and touch ok to go to that chapter.
	Some disc support playing from different angle .
	Info

**Note:** If tips that " Warning!!! It is illegal to watch video while driving." please go to the setting, select the video, and turn on the driving video. Then the tips will go. But for safe driving, please not watching video while driving.

## 2) Phone book

Touch the to enter the Bluetooth phone book interface, and follow the to download the phone book.

## 3) Phone call record

	Dialed call
	Missed call
	Received call

## Bluetooth Setup

1. Touch the Bluetooth to change the Name
2. Touch the Pin code to change the PIN code

## Playing Bluetooth Audio Device

Click into BT music and play music of the device connected by BT

	The last tune
	The next tune
	Play
